- It's an android game of the famous pencil and paper game Bulls and Cows where users can play against android itself.

4. Game Dunia [eCommerce Android App]

Oct,2016-Oct,2016

- I created this application to learn how eCommerce android apps work.Here users can buy video games,search and add products to their wish list.

5. Blood Donation Manager

Oct,2016-Oct,2016

- I created this app to learn how to connect android app to PHP and MySQL databases.It's mainly targeted for NGOs who organize blood donation campaigns.Here users can register a donor account,can be notified about upcoming donation campaign and request blood of their group.

6. Meme Fun

Sept,2016-Sept,2016

- This is an android application which let users to create memes from predefined meme list and save/share them with their friends.

7. Youtube2Mp3 Downloader

Sept,2016-Sept,2016

- It's an android application to download youtube videos in mp3 formats.

8. Mr Hot for Sell

March,2017-March,2017

- It's an android application where vendors can login and update/add their menu to sell via Mr Hot platform.

9. Mr Hot

Dec,2016-April,2017

- It's the primary app of the company(Mr Hot Foods Pvt Ltd) where i interned.I maintained the app development and added new feature based on the requirement of the company.

Interests

- I am an passionate android application developer and spend most of the time learning new things of this field.
- I love programming and do little bit of competitive programming to sharpen my data structure and algorithmic skills
- I also love web development and created few websites for personal use and practice
- I also have interests in the fields of Artificial Intelligence,Machine Learning,Android Game Development

Apart from this I am techhy and used to maintain few blogs related to ethical hacking news. I am a football fan and love to travel and also a noob guitarist in my leisure hours.
